I am a student now studying at Caucasus University (3<sup>rd</sup> year), Computer Science. In terms of Web Development, I have excellent knowledge and experience in HTML, CSS(Sass/Scss), JavaScript (jQuery), Vue.js. For 6 months I have been working on real projects, some of them are already up and running. Also, I have some personal projects built using Vue.js and a little experience of Typescript, React and Angular. In terms of Backend, I know Python (Flask) and have basic knowledge of PHP. I have experience and knowledge of SQL, I can work with data in Relational Database Management System (RDBMS), create data bases and write procedures, also I have basic knowledge at C, C++, Racket, Algorithms and Data structures.

I am detail-oriented, quick learner, analytical thinker and organized with a high sense of responsibility.
