I am a student now studying at Caucasus University (3rd year), Computer Science. In terms of Web Development, I have excellent knowledge and experience in HTML, CSS(Sass/Scss), JavaScript (jQuery), Vue.js, Angular. For 6 months I have been working on real projects, some of them are already up and running. Also, it's already 1 year I am learning Angular and vue.js and use them in personal projects. I have a little experience of React.

In terms of Backend, I know Python (Flask) and have basic knowledge of Node.js and Java.

I have experience and knowledge of SQL, I can work with data in Relational Database Management System (RDBMS), create databases and write procedures, also I have basic knowledge of C, C++, Racket, Algorithms and Data structures.

I am detail-oriented, quick learner, analytical thinker and organized with a high sense of responsibility.
